☒ original site
☐ moved date of move _____

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Sandy Hook Church is a one-story brick structure constructed in a rectangular plan. The church is two-bays by three-bays on a fieldstone foundation. The main facade is symmetrically arranged with a two double-door entrances with colored glass transoms in each bay. The bays are delineated on the main and sides facades with brick pilasters. On the main facade, the entrances are located in the center of the recess sections between the pilasters. The entrances contain two doors of five panels each under a dentil cornice and colored glass transom. In the gable is a semi-circular wood plaque that has the date 1873 inscribed on it. The side bays have large colored glass windows in each bay. The structure dates from 1973.

The property is located on the north side of Sandy Hook Road, approximately .2 mile east of Clark Road, in Sandy Hook. The church sits on a sharp slope away from the road. The main facade faces south.

The slope of the site gives a full story foundation level on the main facade. In the center of the fieldstone foundation is a single entrance. Two sets of concrete steps lead up to the two main entrances of the church. The entrances have double doors of five panels each under a dentil cornice and colored glass transom. The entrances are set in the recess of bays marked by brick pilasters. In the gable is a semi-circular plaque with the date 1973 on it. The cornice of the gable roof includes projecting brick brackets and a molded cornice. The east and west facade has a similar pattern of brick pilasters marking the recessed bays. Each bay has a tall verticle-shaped colored glass window. An interior-end brick chimneys rise from the east side of the church.

There are no significant outbuildings on the property.

8. Significance

Survey No. WA-III-115

Period	Areas of Significance—Check and justify below			
<input type="checkbox"/> prehistoric	<input type="checkbox"/> archeology-prehistoric	<input type="checkbox"/> community planning	<input type="checkbox"/> landscape architecture	<input checked="" type="checkbox"/> religion
<input type="checkbox"/> 1400-1499	<input type="checkbox"/> archeology-historic	<input type="checkbox"/> conservation	<input type="checkbox"/> law	<input type="checkbox"/> science
